SOLÉ ADVANCED SKINCARE

Skin Rejuvenation is a cosmeceutical program focusing not only on aesthetics, but also skin immunity, preservation, and longevity. Book a consultation with our skincare experts to determine your skin rejuvenation program.

pH FORMULA SKIN RESURFACING

pH FORMULA is the first pharma-cosmeceutical treatment line which is the result of an innovative alliance between cosmeceutical and medical prescriptions. A non-invasive process that rejuvenates your skin layer by layer. Controlled skin resurfacing goes beyond the outer layer of the skin to actively stimulate and speed up the process of cellular regeneration in all layers of the skin. New skin cells form from the inside out, resulting in a more radiant, younger looking skin, without the risk and cost associated with cosmetic surgery.

GLOW pH RESURFACING TREATMENT

Our skin resurfacing is targeted to the needs of your skin type – whether it is anti-aging, hyperpigmentation, chronic redness, acne or even if you are looking for an instant boost. Different treatment can be combined in specially designed program with controlled strength and depth depending on the sensitivity levels of your skin.
